Prospective B.Tech candidate
Seeking opportunities to apply knowledge, develop practical skills
And contribute to innovative projects

EDUCATION

 SRM-AP University Mangalgiri-Mandal ,Neerukonda,Amravati ,Andhra Pradesh 52202

- B-Tech in C.S.E(2022-2026)
- Class 12th (2021)||**BSEB**
- Class 10th (2019)||**BSEB**

EXPERIENCE

As a pursuing graduate, I offer valuable skills and a willingness to adapt, eager to learn new things and ready to make meaningful contributions to the company's growth.

SKILLS

- Proficient in programming languages such as C, C++ and python.
- Learning java.
- Good understanding of data structures and algorithms in C.

- Familiarity with web development technologies, including HTML, CSS and Java Script.

Projects

The primary focus of my projects revolves around the mastery of front-end development, centering on the creation of new websites and the meticulous replication of existing commercial websites. In this endeavor, I engage with the intricacies of front-end technologies, honing my skills in HTML, CSS, and JavaScript to craft visually appealing and functionally robust digital experiences.

Some of the projects are –

Tour - (https://ankitjha42.github.io/Tour/)

Jerry game- (https://ankitjha42.github.io/jerrygame/)

Guess the number – (https://ankitjha42.github.io/guess-the-number/)
